Clément de La Bourdonnaye

Engineering degree student in computer science looking for a two to three month internship

Education

Engineering degree in Informatics and Information Systems
University of Technology of Troyes Troyes / From 2016 to 2021

Fourth year in five-year engineering degree course
Semester abroad in UTSEUS (Shanghai University) / From March to June 2018
Preparing semester in NTU (Singapore) / From January to May 2020

Concours Général in engineer sciences
Lycée Livet Nantes, France / 2016

Second runner-up

Scientific S A-Level (French Baccalauréat)
Lycée Livet Nantes, France / From 2013 to 2016

Grade A-pass / Engineer Science Option

Work experience

Software developer
Bouygues Telecom Nantes, France / From July 2019 to December 2019

Angular and Spring developement on data visualisation tools

Order preparator - 1 month internship
Chronodrive Troyes / July 2016

Orders preparation in fresh section

Preparator
Le Lagon Bleu Les Sables-d'Olonne, France / July 2015

Preparation and uninstallation of tents on the beach

Computer science skills

Software Development - Node.JS - Java - Python - C++
Self-taught and practiced in personal projects for 7 years
- Knowledge in OOP, UML and IoC
- Good level with Angular / Bootstrap
Database - MySQL, MongoDB
Collaborative working tools - Git, SVN

Operating systems - Linux (Bash) / Windows

Operational research - Course at UTT
Machine learning / visualization - Few courses at UTT
Mathematical tools - Scilab / MATLab

Associative experiences

Treasurer and member of the robotic association for the UTT
UTT Troyes, France / Since September 2018

Development of the artificial intelligence in **C++** and **python** using **ROS**
